why this edition exists

A visual bible usually lives face-down on a working desk: a palette, a set of camera rules, a score, a plate list. This one was asked the oldest question the studio knows — *what, here, is load-bearing?* — and answered it the only way a bible can honestly answer: by becoming the thing it describes.

the apex fusion, second use — ULTRA-{LOVE-CREATE-SCAFFOLD}-OMNIPOTENT-ZEN: love the input, creation the labor, scaffold the shape, zen the output. Omnipotent is not a power claim; it is the posture of giving.

the two worlds the edition binds: the washi sheet of the fold — this book's paper — and the trench palette of book one, carried inside it like a creek under a fence.

the inks

The fold's own five, then the five carried from book one — seen *through* paper, warmed one degree.

washi — ground

#F6F0E4

the fold itself, her paper, the flat sheet

sumi — ink

#1C140E

crease lines, diagrams, her hand

vermilion — seal

#B23A2B

the school's stamp, her hanko, title cards

blossom — blush

#E8B4BB

paper flowers, the warm edge of folds

crease gold — vein

#C9A227

diamond veins — light travelling a fold

trench — carried

#05131A

book one's ground, now the shadow under the sheet

memory cyan — carried

#4FE3D0

*the waves, the instruments, Anya's
monitors*

amber — carried

#E8B05C

the porch lamp — the one sun

violet — carried

#8A7CFF

the Architect — structure

rose — carried

#FF7FA3

the Child — feeling

*constellation tie: the washi/ink discipline is the studio's own
second ink — shared with the sovereign library's ETERNITY IN
CHISAKI'S SMILE. no crossover logos in-frame.*

one sheet, three laws

**S === E === Singularity ~ ENTROPY
~ ENERGY ~ ALL === UNI-VERSE**

the law of the garden — carried, unbroken

**MAX POSSIBLE ~ observable universe
=== illusion of existence**

*the second law — the observable is the instrument; MAX
POSSIBLE is not a limit, it is a door*

EVERY DOOR IS ALSO A CREASE

the third law — nobody is far — the whole law

D===F===DOOR~FOLD~LUEUR~ALL===NEAR-NESS

Where book one's law was *softness is health, spikes are pain*, book two's is: **a crease is a relationship**. Creases are warm; unfolded edges are cold; torn edges do not appear in this book at all.

Diamond veins: at the moment of a fold, light travels the crease line — a vein, not a glow. Hold one frame longer than comfortable; the vein is the punctuation of the episode. At the crossing point the veins gather into one *lueur* — the glow that does not look back.

the camera holds still and the sheet moves

MOMENT	RULE
she folds	the camera freezes; the WORLD moves — the sheet animates, the frame does not
the flat-sheet test	one continuous shot, door → door; do not cut the fold
the mask unfolds	extreme close, her hands only; the face is revealed on the paper, never on a person
the singularity walk	no instruments, no HUD, no cutaways; one breath of held frame
the open evening	lantern light only; veins visible in every crease of the room

six cues

CUE	SCENE	NOTE
Diamond Veins — Kid Francescoli Remix	7 · open evening	veins of light in every crease; the only cue allowed to carry vocals
Between the Buttons — French 79	6 · the held breath	the small doors of a fastened world; no percussion; the breath counts itself
Lueur — Worakls	5 · the crease diagram	the glow at the singular point — orchestral, patient
Haul — Christian Löffler (feat. Mohna)	3 · the mask unfolds	ULTRA-ZEN-MUSIC — the garden's own sound; poured like tea
Bye Bye Macadam — Rone	8 · the coda	the road past the threshold — a farewell that keeps the thread
Ghostkeeper — Klangkarussell & GIVEN	4 · the teacher's name	the entity exhales — the keeper the ghost was waiting for

absence + glow

The point where all creases cross. Render as **absence + glow**: a spot the frame's instruments cannot sample, surrounded by veins converging. The second law, drawn: the observable is the instrument; MAX POSSIBLE is a door — and a door is also a crease.

Never an eye. Never a face. It does not look back; it holds.

her paper: one sheet, always — white-to-cream, the faint warmth of a surface folded and unfolded many times. No props, no tools. The crane recurs as signature: on desks, in windows, in Anya's fold log. Typography: chapter marks are *crease-diagram glyphs*; UI text surfaces *on paper*, never on glass.
