## 日本

N I H O N

*the land of the rising sun — and for everyone who  
carries its discipline, and for the ones who find  
each other within it.*

# 始まり

HAJIMARI · THE BEGINNING

before 710

Before there was a Tokyo, there was a story.  
The sun goddess *Amaterasu*, the first emperor  
descended from her light, the *kami* breathing  
in every rice field and river. A country  
learning its own name — *Nihon*, the origin of  
the sun.

---

The *Kojiki* (712) and *Nihon Shoki* (720) –  
Japan's oldest chronicles – trace the  
imperial line back to Amaterasu.

# 平安

HEIAN · THE COURT

794 – 1185

Kyoto, the court of poetry. *Murasaki Shikibu* writes the world's first novel. While the nobles compose verse by the light of oil lamps, the samurai rise quietly in the provinces — warriors sworn to protect what the court could no longer hold.

---

*The Tale of Genji* (early 11th c.) is often called the world's first novel; the samurai rose from provincial clans as the court's grip faded.

# 鎌倉

KAMAKURA · THE FIRST SHOGUN

1185 – 1333

The first shogun, *Minamoto no Yoritomo*, takes the power the court could not keep. For the first time, the warrior governs. *Bushido* — the way of the warrior — begins to write itself: loyalty, courage, honor.

---

Yoritomo became the first shogun in 1192, founding the Kamakura shogunate — a military government standing beside the imperial court.

## 戦国

SENGOKU · THE WARRING STATES

1467 — 1600

A hundred years of fire. Castles rise, clans fall. Three unifiers — *Nobunaga*, *Hideyoshi*, *Ieyasu* — bind the broken country with iron and patience. In the tea room, a different discipline: one bowl, one moment, complete.

---

The Sengoku period closed with the "three unifiers" — Oda Nobunaga, Toyotomi Hideyoshi,

and Tokugawa Ieyasu – binding Japan into one.

# 江戸

EDO · THE PEACE

1603 – 1868

The Tokugawa peace. Two and a half centuries of calm, sealed from the world. Edo becomes the largest city on earth. The samurai, no longer at war, become poets and magistrates — and the floating world blooms: *ukiyo-e*, kabuki, the pleasure of the now.

---

*Sakoku* – the closed-country policy – sealed Japan for roughly 250 years; Edo passed a million people, and *ukiyo-e* woodblock prints caught the "floating world."

# 明治

MEIJI · THE OPENING

1868

The shogunate ends. The emperor moves to Edo and renames it *Tokyo* — the eastern capital. The sword gives way to the railway; the castle to the factory. A country opens, and everything changes except the discipline beneath it.

---

The Meiji Restoration of 1868 ended the shogunate; Emperor Meiji moved the capital from Kyoto to Edo, renaming it Tokyo – "eastern capital."

# 今日

KYŌ · TODAY

2026

Tokyo, 2026. Neon and anime, quiet gardens and the world's largest crossing. The samurai's discipline became the city's care — the clean streets, the punctual trains, the craftsmanship in a bowl of ramen. And in the oldest story, the newest chapter: *two people, finding each other.*

---

Tokyo is the world's largest metropolitan area — roughly 37 million. The samurai era's discipline survives in the city's craft, its trains, and its care.

THE SOVEREIGNTY OF IT ALL

道

MICHI • THE WAY

The sword taught mastery. The tea taught presence. The city teaches that sovereignty is not owning everything — it is owning your own path.

The shogun's layer: the discipline that became  
a nation, and the nation that became a city,  
and the city where love still finds a room.

# 神話

SHINWA · WHERE IT ALL BEGAN

*Amaterasu* hid herself in a cave, and the world  
went dark. The other gods hung a mirror and  
began to laugh — and she came out to see  
what the brightness was. The mirror, and  
mirth, called the sun back.

*Susanoo*, the storm god, slew the eight-headed  
serpent and found within it the sword *Kusanagi*

— the grass-cutter, one of the three treasures.

The *forty-seven rōnin* waited a year, and then another, and then avenged their master — loyalty held past death, the samurai's last and greatest act.

THE PROTECTOR • マハーカール

# マハーカール

MAHAKALA • THE GREAT BLACK ONE

Beyond the samurai's Japan sits an older, higher guard: *Mahakala*, the Great Black One — the wrathful form of compassion itself, the protector of the dharma. In the Kagyu lineage of Tibet, he is the keeper of the gate: black, fierce, crowned, holding the curved knife that cuts delusion, and the skull-cup that holds what is left of the self.

His anger is not anger. It is compassion that refuses to let harm pass — the same discipline as the sword, turned inward and upward, the protector who guards what matters.
